

# Double Trouble

A Day at the Races, Arkhangai, Mongolia

Mark Gilchrist **On This Planet Earth** July 18, 2019 DT-6

How many differences can you find in the two images below? (I found 6.)

**SOLUTION, (From Left):** 1. A girl appears, and appears to be watching something else. 2. Medals on the woman and man disappear and appear. 3. The woman's hat is tilted. 4. An all-white shirt in the back row. 5. A green hat in the back row. 6. The front-row boy's attention wanders.

Spectators watch the children's horseback-riding competition in the stadium of Arkhangai, Mongolia during the city's annual Naadam Festival. Competitions also include the three "manly sports" of horse racing, archery and wrestling. (For photographs of some of the countries I have traveled, visit my [TRAVEL PAGE](#).)
