

Double Trouble

Seim Reap, Cambodia

Mark Gilchrist On This Planet Earth May, 2018. DT-3

How many differences can you find in the two images below? (I found 7...)

SOLUTION: 1. Bench on right is missing. Mark picked up litter! Plastic bottle is gone. 3. Container on rear tray is purple. 4. Her left foot is bare. 5. Two rolls are missing. 6. The "On This Planet Earth" logo is gone. 7. Other woman's toenails are colored.

This woman is a roving food vendor in Seim Reap, Cambodia. Many families rely on her to cook meals and deliver them to their homes, as well as engage in important community conversation. Carefully balancing her tools, ingredients and a working barbecue, she deftly maneuvers through traffic and other hazards on her daily rounds. Impromptu coverings shelter the food and stove from rain, hardly interrupting her role as an important part of the community.
